

## CASE STUDY

# WAVEPTX uses in Towing and Recovery Services

### Challenges Solutions Results

Client operates island-wide, day and night around Singapore, recovering and towing automobiles such as cars, bikes, and commercial vehicles. Making phone calls to other drivers or HQ while driving is difficult and unsafe. Furthermore, Tow truck cabins are noisy. Speakers on mobile phone is too soft and wearing earpieces for extended periods of time is uncomfortable. Client would like a solution to solve the calling and audio limitations.

Motorola’s WAVE PTX platform leverages on the latest Cellular network technologies, enabling Island-wide coverage up to 99.9% outdoors and 99% indoors. The TLK100i walkie talkie has a very loud speaker and a PTT button for instantaneous communication with anyone easily. Furthermore, Wave PTX TLK100i can be charged easily via Micro USB.

WAVE PTX allowed our customer to communicate seamlessly from anywhere in Singapore, even in extreme ends such as Jurong, Pasir Ris or Sentosa. The TLK100i is easy to use while operating and driving tow trucks, enabling seamlessly communication with other drivers and HQ to send updates and instructions. Drivers stay safe on the road and enjoy a simple and effective communication flow.

## SMARTER, SIMPLER!

A simple Push of the Button that allows communication effectively and efficiently.

*“For over 41 years, we’ve been in communications and constantly seeking and developing new technology for enterprises of all sizes. Our mission is to provide companies with cutting-edge products that enable employees to work better and smarter.”*
